

Internet Banking Update

It is our commitment that Bankers Trust will continue to provide industry leading technology to make banking convenient and safe for our customers. To realize this commitment we are updating the Internet Banking navigation on March 15 to provide convenient access to your banking needs. Enjoy!

What has changed?

The navigation bar at the top will now organize the tabs into one menu that allows you to view all the links associated with each tab. We have also consolidated the Make Payments and Transfer Funds into one tab called Pay and Transfer.

Here is what the new navigation bar looks like:

We hope the improved navigation will make it easier to enjoy all the great tools and information within Internet Banking. Customer service is ready to assist with any questions about your Internet Banking experience.
